IRIS, Iowa Immunization Program. Data reported to IRIS as of 1/26/2021. Data subject to change due to ongoing reporting.

COVID-19 Vaccine Series Completion by County of Vaccine Provider

COVID-19 Vaccine Doses Administration Data January 2021

Iowa COVID-19 Vaccine Report

- Iowa healthcare providers administering COVID-19 vaccines are required to enroll in IRIS and report COVID-19 doses administered within 24 hours as part of the CDC COVID-19 Vaccination Program Provider Agreement.
- The Iowa Immunization Program uses data reported to the Immunization Registry Information System (IRIS) to track and monitor COVID-19 vaccine administration. The Iowa COVID-19 Vaccine Report will be updated daily using IRIS data.
- The Iowa COVID-19 Vaccine Report data is updated daily. Updated data is independent of the date of administration and will include doses reported outside the 24-hour required reporting period.
- Vaccine administered data previously reported will change as additional doses administered data is reported to IRIS.

Data limitations

- IRIS receives vaccine administered information on an ongoing basis. Vaccine administration data will continuously change as vaccine administration is reported to IRIS.
- IRIS does not capture information related to occupation or risk factors such as underlying health conditions. It is not possible to include these factors in data reports.

Measure Descriptions

- **Total Doses Administered in Iowa:** Number of COVID-19 vaccines administered by healthcare providers as reported to IRIS, including in-state and out-of-state residents. Out-of-state residents may be vaccinated in Iowa if they meet the current phase criteria, such as an out-of-state healthcare provider working in Iowa.
- **Doses Administered to Iowa Residents:** Number of COVID-19 vaccines administered by healthcare providers to individuals with an Iowa address as reported to IRIS.
- **Doses Administered by County of Vaccine Provider:** Number of COVID-19 vaccines administered by county of the COVID-19 vaccine provider location. This map indicates where COVID-19 vaccines have been administered in the state of Iowa.
- COVID-19 Vaccine Series Initiated and COVID-19 Vaccine Series Completed are distinct and non-overlapping categories, with the following measure definitions:
 - **COVID-19 Vaccine Series Initiated:** Number of individuals that have received one dose of the COVID-19 vaccine series, but have not completed the series. This category excludes individuals that have received a completed COVID-19 vaccine series.
 - **COVID-19 Vaccine Series Completed:** Number of individuals that have received all of the required doses of the COVID-19 vaccine series. This category excludes individuals that have not received a complete COVID-19 vaccine series.
